FERPA

ALL Prospective Students

Completed by Parent or Guardian

2024-2025 School Year

Family Educational Right and Privacy Act (FERPA) is a federal law giving access rights to parents to their children’s educational records. **FERPA** give the parents the right to inspect all records maintained by the school upon request. This law also limits the access to these records to those in the school that have “legitimate educational interest.”

I have read and understand the above statement.
