Pathways to the Future

CORRY AREA SCHOOL DISTRICT PATHWAY GUIDE

"College, Career, and Life readiness means that an individual has the knowledge and skills necessary for success in post-secondary education, economically viable career pathways, and personal effectiveness in a 21st century economy."

NON-DISCRIMINATION STATEMENT

The Corry Area School District is an equal opportunity education institution and does not discriminate in employment, educational programs or activities based on race, color, religion, ethnicity, national origin, sex, gender, gender identity and expression, sexual orientation, age or disability, because a person is a disabled veteran or veteran of the Vietnam Era or any other legally protected class, or for engaging in any other protected activities. The District does not discriminate on the basis of sex in the education programs or activities that it operates, as required by Title IX, including in admission and employment practices. Additionally, the District provides equal access to Boy Scouts and other designated youth groups. This policy of non-discrimination extends to all other legally protected classifications. Publication of this policy is in accordance with state and federal laws including Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act, Title II of the Americans with Disabilities Act and the Boy Scouts of America Equal Access Act.

Inquiries pertaining to discrimination on the basis of disability or alleged violations of Section 504 may be made by contacting the District's Section 504 Compliance Officer, Mrs. Amy Helsley, Director of Special Education, 540 East Pleasant Street, Corry PA 16407, ahelsley@corrysd.net, (814) 664-4677.

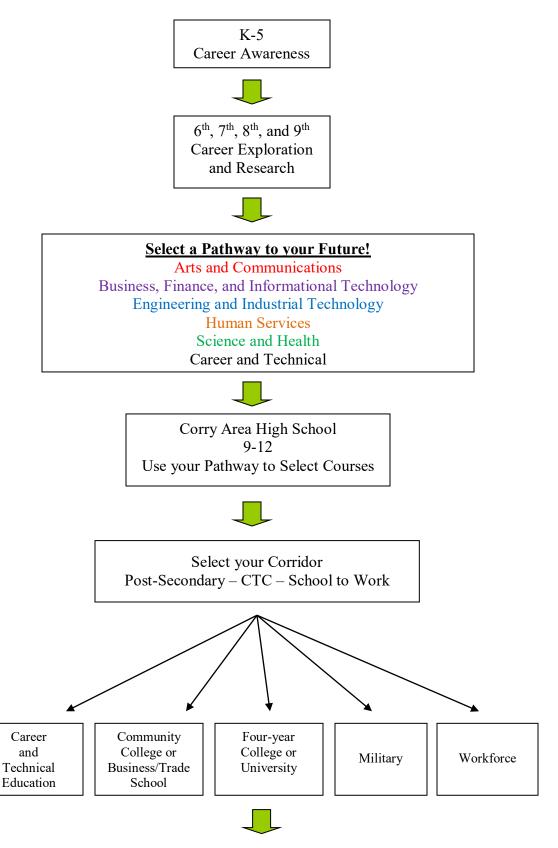

All other inquiries implicating the other protected classes and laws listed above should be directed to the District's Title IX Coordinator, Mr. Bill West, Director of Secondary Education, 540 East Pleasant Street, Corry PA 16407, bwest@corrysd.net, (814) 664-4677. Complaints of discrimination may also be referred to the Assistant Secretary of the U.S. Department of Education. The grievance procedure for reporting

PATHWAYS TO THE FUTURE

CORRY AREA SCHOOL DISTRICT

Successful and Satisfying Career!

What are Career Pathways?

What are career pathways?

Each pathway is a broad spectrum of careers that are grouped together because they share the same interests, skills, and aptitudes. All pathways include a spectrum of occupations that require varying levels of education and training. Choosing a career pathway allows the students an area of focus, yet allows students flexibility and variety in their course scheduling and career aspirations.

Are career pathways designed for me?

The career pathways are for all students! In choosing a career pathway, students can get prepared for the future, regardless of their interests, skills, aptitudes, or desired level of education. So take your time and look over the pathways and all they have to offer before selecting one.

What benefits do career pathways programs have for students?

- 1) Increase career awareness, exploration, and research
- 2) Improve students' understanding of the broad spectrum of occupational and educational opportunities available to them in the present and future
- 3) Help provide students with a better understanding of their interests, skills, and aptitudes
- 4) Supply a wealth of information so students make well informed decisions when creating goals and a career plan
- 5) Provide a framework to help students' select elective courses that are relevant to the career area of their interest
- 6) Provide students a direction to focus their course work, part-time employment, after school activities, and community service
- Emphasize the connection of school work to the world of work. Student grades increase when the connection is realized by students
- 8) Convey the importance and relevance of course selections to career plans
- 9) Inform and prepare students with career education prior to graduation so they can compete and succeed in our global economy

Does a particular pathway determine whether a student goes to college or not?

No, every pathway is designed with the flexibility to fit each individual student's depth of study and goals. Each pathway can accommodate courses for a student directly entering the workforce or pursuing a two- or four-year degree. Basically, the student designs his/her schedule within the pathway to help prepare the student for whatever level of interest and level of education he/she desires.

Is this career pathways program unique to our school?

Absolutely not! There are schools across the nation that are integrating career pathways into their course scheduling, curriculum, and career guidance for students. This type of program is continuing to expand across the nation due to the numerous benefits it has to offer to students, parents, and educators.

How can parents help with the career pathways program?

- 1) Parents can help their son/daughter identify interests, abilities, and talents by sitting down with them and discussing what they perceive as strengths of their son/daughter.
- 2) Parents can discuss their education and work experiences with their son/daughter.
- 3) Parents may know some adults in other occupations that may be able to provide useful information to their son/daughter by sitting down for an informal talk with them about their occupation.
- 4) Parents should continue to talk with their son/daughter about their career pathway. Students need to understand their pathway choice is not permanent. The courses and experiences they have throughout high school may change the way they think and ultimately change the career pathway they are heading towards.

Corry School District's Pathways to the Future

ARTS AND COMMUNICATIONS

This pathway is designed to cultivate students' awareness, interpretation, application and production of visual and written work.

BUSINESS, FINANCE, AND INFORMATIONAL TECHNOLOGY

This pathway is designed to prepare students for careers in business, finance, and information services.

ENGINEERING AND INDUSTRIAL TECHNOLOGY

This pathway is designed to cultivate students' interests, awareness, and application to areas related to technologies necessary to design, develop, install, and/or maintain physical systems.

HUMAN SERVICES

This pathway is designed to cultivate students' interests, skills, and experiences for employment in careers related to family and human needs.

SCIENCE AND HEALTH

This pathway is designed to cultivate students' interests in science in the life, physical, and behavioral sciences. Additionally, the pathway will also help students develop an understanding of the planning, managing, and providing of therapeutic services, diagnostic services, health information, and biochemistry research development.

CAREER AND TECHNICAL

This pathway is comprised of the eight programs available to students in the Career and Technical Center. The programs that are available are as follows: Automotive Technology, Building Maintenance Trades, Early Childhood Education, Cosmetology, Welding Technology, Machine Tool Technology, Health Care Technology, and Diversified Occupations. Students enrolled in one of these programs will have the opportunity to earn a Pennsylvania Skills Certificate in their area of study.

ARTS AND COMMUNICATIONS

This pathway is designed to cultivate students' awareness, interpretation, application and production of visual and written work.

Concentration Areas:

- Printing Technology and Graphic Communications Technology
- Performing Arts
- Audio/Video Technology and Film
- Visual Arts
- Journalism and Broadcasting
- Telecommunications

BUSINESS, FINANCE, AND INFORMATIONAL TECHNOLOGY

This pathway is designed to prepare students for careers in business, finance, and information services.

Concentration Areas:

- Business Management & Administration
- Finance/Accounting
- Information Technology
- Marketing/Sales

ENGINEERING AND INDUSTRIAL TECHNOLOGY

This pathway is designed to cultivate students' interests, awareness, and application to areas related to technologies necessary to design, develop, install, and/or maintain physical systems.

Concentration Areas:

- Architecture and Construction
- Engineering and Engineering Related Technology
- Manufacturing
- Transportation, Distribution, and Logistics

HUMAN SERVICES

This pathway is designed to cultivate students' interests, skills, and experiences for employment in careers related to family and human needs.

Concentration Areas:

- Education & Training
- Government & Public Administration
- Hospitality & Tourism
- Human Services
- Law, Public Safety, Corrections, & Safety

SCIENCE AND HEALTH

This pathway is designed to cultivate students' interests in science in the life, physical, and behavioral sciences. Additionally, the pathway will also help students develop an understanding of the planning, managing, and providing of therapeutic services, diagnostic services, health information, and biochemistry research development.

Concentration Areas:

- Agriculture, Food, and Natural Resources
- Health Science
- Science, Technology, Engineering, & Math

CAREER AND TECHNICAL

This pathway is comprised of the eight programs available to students in the Career and Technical Center. The programs that are available are as follows: Automotive Technology, Building Maintenance Trades, Early Childhood Education, Cosmetology, Welding, Machine Tool Technology, Health Care Technology, and Diversified Occupations. Students enrolled in one of these programs will have the opportunity to earn a Pennsylvania Skills Certificate in their area of study.

Concentration Areas:

- Automotive Technology
- Building Trades Maintenance
- Welding Technology
- Early Childhood Education
- Cosmetology
- Machine Tool Technology
- Health Care Technology
- Diversified Occupations

REQUIRED COURSEWORK FOR ALL PATHWAYS

This four-year plan of study should serve as a guide for your academic core requirements and electives. All plans should meet CAHS graduation requirements.

VARIOUS CAREER PATHWAYS WITH COURSE OF STUDY

PATHWAY: ARTS AND COMMUNICATIONS

This pathway is designed to promote an understanding of the designing, producing, performing, and writing of art, music, and multimedia content.

Are you interested in	Can you	Do you enjoy
News reporting and writing	Sing	Making videos
Interviewing and reviewing	Play an instrument	Working with film props
Multi-media productions	Be creative	Seeking creative ideas
Acting	Act	Working with sound effects
Radio, TV, film, video	Articulate clearly	Performing for an audience
Performing in band, chorus	Write and conduct interviews	Working with computers
Attending concerts	Draw or Paint	Learning about history
Literature	Remember historical dates	Learning about different cultures
History	Navigate computer software	Thinking in the abstract

What exactly do Arts & Communications Majors go to school to study?

Art has a wide spectrum of different majors to study. Some art majors study the Fine Arts which involve composing, producing, or performing in different areas such as: music, dance, theatre, film, or sculpting. Other art majors may study art history, art education, or some type of administration of the arts. There are also art majors who may study the Commercial Arts (Visual Communications) which include: illustration, graphic design, photography, music videos, animation, T.V. commercials, and computer art.

Communications majors may take courses in a number of different areas such as advertising, film and video, journalism, media studies, public relations, and telecommunications. They will also take liberal arts courses if pursuing a bachelor's degree.

A list of some possible Arts & Communications Majors currently offered at the postsecondary level.

Ballet	Playwriting/Screenwriting	Creative Writing
Broadcast Journalism	Theatre/Theatre Arts	Public Relations

What exactly do Business majors go to school to study?

Students who go on to postsecondary school for business learn specific skills that enable them to excel as a general business professional or as a specialist. Students study finances, accounting, computers, economics, and many other fundamentals of the business world to help prepare them for all types of occupations in the workforce. The number of different jobs in the business world is nearly limitless and it is changing everyday.

What exactly do Engineering and Industrial Technology majors go to school to study?

Engineering majors are in high demand in the engineering and technology fields, but they are also in high demand in the agricultural, business, environmental, and medical fields. Engineering majors usually concentrate on some area of specialty, supplemented by science and math courses.

Engineering and Industrial Technology majors basically study and learn about the technology necessary to design, develop, install, and maintain mechanical, electrical, and structural systems. These majors are in a number of different concentrated areas including: engineering, manufacturing, construction, and related technologies. Due to the nature of technology, majors and curriculums are subject to change with the constant progression of technology in our global society.

Teaching	Be in a leadership role	Selling products or services
Counseling	Listen to other people's problems	Handling customer complaints
Religion	Use interpersonal skills	Searching for answers to human
Military	Be conscientious and dependable	dilemmas
-	Create budgets	

What exactly do Human Services majors go to school to study?

Human Service majors graduate with skills required to serve clients in a variety of public settings. All Human Service majors acquire a set of skills and knowledge that allow them to work effectively at any occupation they may work in. Skills and knowledge include: counseling, child development, human service administration, management, organization, oral communication, grant writing, and research. Basically, Human Service majors are trained to help people with their physical, intellectual, emotional, or spiritual needs. Students select a major based on which need(s) they wish to help other people with.

	Be patient and persistent	research

What exactly do Science and Health majors go to school to study?

The majority of a science major's early coursework revolves around the student understanding and utilizing the scientific method of testing theories by reproducing experiments. Students work hard to enhance their critical thinking and mathematical skills as well. As students progress through school, their coursework shifts to original research and the development of new theories. Some colleges even allow some students to work directly with professors on research projects.

Health and Medical Science majors seem to follow two avenues. Some students work towards pre-professional majors that will lead to graduate/professional schools. This then leads to careers such as a dentist or various other types of doctors. The other students take courses in the medical science majors that lead to professions in areas such as nursing, diagnostics, rehabilitation, pharmaceuticals, medical assistants, and administration.

A list of some possible Science and Health majors currently offered at the postsecondary level.

Astronomy Animal/Plant Genetics Athletic Training Dentistry
Biochemistry Archeology Audiology Dietetics
Biomedical Sciences Gerontology Chiropractic E.M.T.

Occupational Therapy Paleontology Mortuary Science Pharmacy Phlebotomy Pharmacology Food Science Physical Therapy Hematology Pharmacy Technician Respiratory Care Therapy Veterinary Medicine Home Health Care Public Health Radiological Technology Sonography/Ultrasound

Entry (On-the-Job-Training)	Technical/Skilled (1-3 years)	Professional (4 or more years)
Animal Caretaker	Certified Nursing Assistant	Agronomist
Breeder	Dental Lab Technician	Astronomer
Data Entry	Dental Hygienist	Athletic Trainer
Dialysis Technician	Diagnostic Medical Sonographer	Chemist
EEG Technician	EEG Technician	Chiropractor
Extension Service Worker	Emergency Medical Tech	Dietician
Farm Manager	Fish & Game Worker	Geneticist
Food Conservation Worker	Forest Conservationist	Geographer
Groundskeeper	GPS Technician	Geologist
Hazardous Waste Technician	Licensed Practical Nurse	Marine Biologist
Home Health Aide	Medical Lab Technician	Medical Examiner
Hospital Worker	Nanotechnician	Nutritionist
Nursery Worker	Optician	Occupational Therapist
Patient Care Technician	Pharmacy Assistant	Oceanographer
Physical Therapy Aide	Personal Trainer	Pharmacist
Wildlife Reserve Worker	Radiological Technician	Physician
Zoo Caretaker	Respiratory Therapist	Podiatrist
	Sound Engineer	Registered Nurse
	Veterinary Technician	Soil Conservationist
		Statistician
		Toxicologist
		Zoologist

SCIENCE AND HEALTH PATHWAY COURSE OF STUDY

This four-year plan of study should serve as a guide for your academic core requirements and electives. All plans should meet CAHS graduation requirements.

Suggested Electives Please Note: Before selecting any elective, be sure all prerequisites have been met.

9th	10 th	11 th	12th
Computer Applications	Computer Applications	Computer Applications	Computer Applications
	Advanced Computer Applications	Advanced Computer Applications	Advanced Computer Applications
Child Development	Child Development	Child Development	Child Development
Intro to Robotics	Intro to Robotics	Intro to Robotics	Intro to Robotics
	Advanced Robotics	Advanced Robotics	Advanced Robotics
Electronics	Electronics	Electronics	Electronics
Forestry 1	Forestry 1, 2	Forestry 1, 2	Forestry 1, 2
STEM 1	STEM 1, 2	STEM 1, 2	STEM 1, 2
		AP Statistics	AP Statistics
			Calculus
			AP Calculus
9th Grade Exploratory CTC			
-Intro to Healthcare Technology			
	Healthcare Technology 1	Healthcare Technology 1, 2	Healthcare Technology 2, 3
		Principles of Technology	Principles of Technology
		Intro to Chemistry	Intro to Chemistry
		Chemistry 1, 2	Chemistry 1, 2
		Biology 2	Biology 2
		AP Chemistry	AP Chemistry
		Ecology	Ecology
		Cellular/Molecular Biology	Cellular/Molecular Biology
		Anatomy and Physiology	Anatomy and Physiology
		Physics 1, 2	Physics 1, 2
		World of Healthcare	World of Healthcare
		Personal Fitness	Personal Fitness
Spanish 1, 2	Spanish 1, 2, 3	Spanish 1, 2, 3, 4	Spanish 1, 2, 3, 4, 5

The following course is considered under this pathway but must be scheduled through the Career and Technical Pathway: Health Care Tech Level 1 and 2

CORRY AREA CAREER & TECHNICAL CENTER CAREER AND TECHNICAL COURSE OF STUDY

Myths and the Real Facts about Career and Education Planning

Students often get confused about fact and fiction when it comes to career and educational planning. The following are some of the myths students should consider when exploring careers for their future.

Myth 1: There is only one job that is right for me.

No individual is one-dimensional. The reality is there are a number of different occupations available in the workforce that are "right" for each individual. Every individual has different sets of interests, skills, and aptitudes that can be applied to multiple occupations. That's a good thing, because individuals entering the workforce can expect to change occupations at least five to six times during their adult career.

Myth 2: There is a particular set of job responsibilities for every occupation.

The reality is that people may have the same exact job title but their job responsibilities may be very different. The variations in job duties are perpetuated by each individual's interests and skills, as well as the needs of the employers.

Myth 3: Attaining good grades in high school guarantees acceptance into a good college or university.

A good transcript certainly will help contribute to a student's admission into a good postsecondary school, but it does not guarantee anything. Colleges or universities admission representatives take a number of factors into consideration before making a decision on a student's status. Standardized tests, letters of recommendation, essays, and interviews also play a large role in the admission representative's decision.

Myth 4: A bachelor's degree (4-years) guarantees a good paying job.

When an individual is dealing with the labor market, nothing is guaranteed! Many of the current jobs available require skills that can be obtained by attending a community college or technical school. There are many graduates from 2 and 4-year schools who are working in occupations for which they are actually overqualified. Individuals must also face the reality that they must go where the jobs are located to utilize their degrees and experience.

Myth 5: Community colleges and technical schools are reserved for individuals that can't afford or are not intelligent enough to attend a university/college.

Many students who attend community colleges/technical schools are simply looking for a two-year degree that will train them to compete for occupations in their area of interest. Many of these individuals don't want to spend time and money taking courses that are not required for the field of work in which they want to be employed.

The idea that community college/technical students aren't intelligent enough to gain admission to a college or university simply is not true. Some high school graduates and adults use the community college as a stepping stone towards gaining admission to a college but also use it as a career exploration tool by taking courses in different fields of interest before investing a large amount of time and money into furthering their education

Skills and Character Traits Most Desired by an Employer

Skills

- Analyzing/Researching Skills
- Being Flexible and Making Adjustments
- Communicating Skills: Listening, Speaking, Writing
- Being Computer and Technologically Literate
- Being Creative
- Showing Leadership Ability
- Multi-Cultural Awareness
- Organizational Skills
- Able to Problem-Solve
- Ability to work and get along with others on a team

Character Traits

- Being Dedicated
- Being Dependable
- Acting with Integrity
- Using Energy and Passion
- Being Self-Motivated
- Acting Confident
- Using a Positive Attitude
- Acting Professional
- Being Responsible
- Applying Work Ethic
- Being Open to Learning

Most individuals have these skills and traits to some degree. As you read the lists, identify the skills or traits on the list that closely correlate with your strengths. You can use these strengths to improve your resume or talk more introspectively with an employer about your skills and traits.

Additionally, read the lists and identify those skills or traits in which you perceive a weakness in yourself. Individuals may read and research, participate in training or seek a mentor to improve in areas where there are deficiencies.

For more information about career pathways and resources, please see your school counselor in the guidance office.

FASTEST GROWING OCCUPATIONS 2019-2029

OCCUPATION	GROWTH RATE, 2019-29	2019 MEDIAN PAY
Wind turbine service technicians	61%	\$52,910 per year
Nurse practitioners	31%	\$109,820 per year
Solar photovoltaic installers	51%	\$44,890 per year
Occupational therapy assistants	35%	\$61,510 per year
Statisticians	35%	\$91,160 per year
Home health and personal care aides	34%	\$25,280 per year
Physical therapist assistants	33%	\$58,790 per year
Medical and health services managers	32%	\$100,980 per year
Physician assistants	31%	\$112,260 per year
Information security analysts	31%	\$99,730 per year
Data scientists and mathematical science occupations, all other	31%	\$94,280 per year
Derrick operators, oil and gas	31%	\$46,990 per year
Rotary drill operators, oil and gas	27%	\$54,980 per year
Roustabouts, oil and gas	25%	\$38,910 per year
Speech-language pathologists	25%	\$79,120 per year
Operations research analysts	25%	\$84,810 per year
Substance abuse, behavioral disorder, and mental health counselors	25%	\$46,240 per year
Forest fire inspectors and prevention specialists	24%	\$45,270 per year
Cooks, restaurant	23%	\$27,790 per year
Animal caretakers	23%	\$24,780 per year
