Cosmetology

For a Successful Career in the Beauty Industry, training is only first stage in an ongoing learning process. Image, attitude and the ability to communicate with customers are all essential skills. This three year program builds student confidence in personal and Professional hair, skin, and nail care in a salon setting, preparing students for entry level employment. Upon successfully competing the required 1250 hours of demonstrated competencies, (individualized classroom and clinic exercisers) students are eligible to take the State Board to become a licensed and working cosmetologist. All students in the program are encouraged to take the State Board.

In the beauty industry, potential wages and benefits depend on levels of education and where the cosmetologist prefers to work and live.

Everyone makes his or her own decisions.
