May 5, 2020

Dear Students, Parents, and Guardians,

On this webpage, you will find folders containing materials at your child's respective grade level, and ones intended to present new material, as well as enrich and review previously taught material. As you know, Cycles 1, 2, and 3 were prepared in two week increments. However, this particular one (Cycle 4) will encompass nearly four weeks and lead us through the end of the year. The last student day is set for Thursday, June 4, 2020, so all student work must be turned in by Tuesday, June 2. Similar to previous cycles, student work is to be submitted in the wooden drop box outside each school building. Ideally, completed packets are to be dropped off at your child's respective school, but if it is more convenient at another building, that is fine also.

Once again, material included in the specific grade level folder is a combination planned instruction (new learning) and enrichment and review. We encourage our students do their best, but realize some things may be more challenging. Do remember, however:

We Don't Grow When Things Are Easy. We Grow When We Face Challenges.

-Nurma Clarkson-

If you have any questions regarding the materials and activities enclosed in the Folder, please reach out to your child's teacher first. If you have additional Questions or would like to request printed materials, please contact Corry Area Primary or Corry Area Intermediate, at (814) 664-4677, and speak to the Building principal. You may also email Mr. Daum at ddaum@corrysd.net

We appreciate your support and collaboration during this difficult period. Stay Safe and stay healthy.

Sincerely,

Elementary Administrative Team
