

Important  
Information from  
the:

# Follow these hints and prevent **DANGEROUS SLIPS**

- Clean up spills, drips, and leaks immediately.
- Sand icy spots immediately—and tread carefully.
- Put up signs or barriers to warn people about slip or trip hazards, like puddles or loose carpets.
- Wear shoes with nonskid soles made of materials that resist oils and acids.
- Avoid turning sharply when you walk on a slippery surface.
- Walk slowly and shuffle your feet on wet, slippery, or uneven surfaces.
- Report hazards immediately.

**Most important,  
be careful!**  
Take your time and look  
where you're going.

**SAFETY AND SECURITY  
COMMITTEE**

Safety needs to be everyone's concern, especially so during the winter months. Slips, trips and falls, these can happen to any of us during our lives, the majority of which can be prevented by being a little more observant and paying a little more attention to our surroundings.

Winter safety starts the minute you leave your home. Wear the best footwear and outerwear. Even though the sidewalks and streets are plowed and salted, it is winter and slippery conditions still exist.

Please report any hazards immediately to the office, custodians, or a member of the Safety and Security Committee. It is everyone's job to keep one and all safe and secure when in our District.

Remember—being safe is a choice, so make the right decision for your well-being.
